

## Strawberry Fields - U-Pick

The strawberry fields of Carlsbad are legendary to the San Diego region. Within sight of the Pacific Ocean are broad stretches of strawberry fields producing the juiciest, sweetest, richest fruits around. California produces 83% of the country's strawberries, and the combination of Carlsbad's warm sunny days and cool foggy nights provide a unique environment for growing the most delicious, beautiful strawberries in the world.

Carlsbad strawberries are nurtured with care down the road from The Flower Fields at Carlsbad Ranch. Nothing says Carlsbad like a ripe, fresh strawberry. And nothing says strawberry like Carlsbad Gourmet.....

If you wish to visit or contact the strawberry fields, please [click here](#) to visit their website.
